## FirstCaribbean International Bank (Bahamas) Limited Chairman's Review Of the Results For the six months ended April 30, 2010

Consolidated net income for the six months ended April 30, 2010 was \$37.7 million, compared to \$29.8 million in 2009, an increase of \$7.9 million or 27%, primarily driven by increases in operating income.

Total revenues were \$6.5 million up year on year with declines in net interest income being offset by increases in operating income. Net interest income was down \$6.7 million due to lower interest rates and average volumes, while operating income was up by \$13.2 million due to higher gains on the sale of investment securities, lower mark to market losses and higher fee income.

Operating expenses were 3% higher and loan loss expenses were 17% lower than the previous year.

The Directors have declared an interim dividend of 15 cents per share payable on July 13, 2010 to shareholders of record at the close of business on July 9, 2010.

We thank our customers and shareholders for their continuing loyalty and patronage and our dedicated staff for their contribution.

Michael K. Mansoor

Chairman
