

**FIRSTCARIBBEAN**  
INTERNATIONAL BANK

**FirstCaribbean International Bank (Bahamas) Limited**  
**Chairman's Review**  
**Of the Results**  
**For the six months ended April 30, 2011**

The Bank's results continue to be reflective of the effects of the global recession with persistent soft loan demand and low interest rates, and rising operating costs. Consolidated net income for the six months ended April 30, 2011 was \$26.6 million, compared to \$37.7 million in 2010.

Total revenues were \$1.2 million up year on year with an increase in net interest income being offset by a decline in operating income. Net interest income was up \$4.6 million due to decline in deposit volumes combined with lower costs of deposits, while operating income was down by \$3.4 million due to lower gains on the sale of investment securities and lower credit related fee income.

Operating expenses were \$5.3 million higher mainly due to overall increases in general operating costs and loan loss expenses, which increased by \$7.1 million over the previous year.

Capital ratios remain well in excess of regulatory requirements, positioning the Bank well to deploy capital for growth initiatives and to take advantage of opportunities that may arise in the future.

The Directors have declared an interim dividend of 13 cents per share payable on June 29, 2011 to shareholders of record at the close of business on June 24, 2011.

I thank the Board, management, staff and our customers for their continuing support.
