

FAMGUARD SELLS WEALTH MANAGEMENT PORTFOLIOS TO LENO CORPORATE SERVICES

The Board of Directors of FamGuard Corporation Limited (“FamGuard”) advises that Leno Corporate Services Limited (“LENO”), a leading provider of financial and investment management services, will assume the portfolios of FG Capital Markets Limited, FG Financial Limited and FG Financial Fund Limited, SAC. Therefore, on or before June 1, 2019, all brokerage, mutual fund and pension accounts will be transferred to LENO. To ensure continued service to all clients, our wealth management staff will also transition to LENO.

LENO is a fully Bahamian owned and operated entity that has been providing financial and investment management services to individuals and institutions both locally and internationally since 2010. With more than \$100 million in assets under management, LENO strives to be the bridge between clients and their financial needs, which is the concept behind its motto, “Bridging Possibilities.”

LENO is a licensed Broker Dealer on the Bahamas International Securities Exchange and is regulated by the Securities Commission of The Bahamas, offering services which include individual retirement plans, mutual funds, fund administration, college savings plans, investment management services, pension administration services, brokerage and trading services, accounting and payroll, and corporate services. LENO’S team is headed by its founder and President Mr. Sean K. Longley, a Certified Public Accountant who has more than 25 years of experience in the financial services industry and served in several senior executive positions during this time.

With the sale of these portfolios to LENO, FamGuard, through its subsidiaries - Family Guardian Insurance Company Limited (& its BahamaHealth division), and FG Insurance Agents and Brokers -, is positioned to expand on its product offerings so that it can continue “Building a Better Life for Many.”

The final sales price will be published on closing.
