ANNUAL REPORT 2018

---

FOCOL Holdings is an energy company. From fueling vehicles for journeys that matter; to supplying the propane thousands of homes and restaurants rely upon to prepare meals that bind us together; we provide energy that powers the everyday lives of Bahamians. As the world advances its global climate change agenda, the way in which we consume energy is changing; and for the past few years, FOCOL has been evolving its organization to embrace these changes and the opportunities they will provide.

**“Our energy future is bright and ripe with opportunity.”**

International treaties designed to accelerate actions and investments that minimize the global carbon footprint is transforming the global energy sector. Although these efforts primarily seek to advance the role of renewables, the rate of expansion in global energy demand is projected to outpace that of renewables, supporting increasing demand for petroleum products well into the future. While the rate of evolution toward this distant, low-carbon future is uncertain; FOCOL's commitment to participating in that future is unwavering.

Over the last four years, FOCOL has been very deliberate in its investments to prepare the organization for expected changes in the energy sector. We have optimized and fortified our fuel logistics and supporting infrastructure, inclusive of berthing enhancements and storage expansion. Our fleet has been retooled with higher capacity ocean carriers, the most recent of which was our acquisition of the 2.2 million gallon M/T Brad Sun. Substantial investments in IT and automation systems over the last two years were targeted to meet current organization demands while providing a platform for the organization to keep pace with rapid technological advancements and evolving stakeholder demands into the future. These systems are improving the overall administration of the business, and together with a systematic plan for business process re-engineering, will yield operational and financial benefits in Fiscal 2019 and beyond. Finally, but most importantly, we have expanded the skillsets of our staff, whose acumen and diligence will play an integral role in our future success. These initiatives are improving efficiencies; fortifying our existing business; and liberating organizational capacity for more strategic engagement to facilitate growth. We are evolving from the inside out.

Our present and our future are inextricably linked and as we enhance and secure our current business, great advancement is also being made toward positioning the company for industry changes. Our energy future is bright and ripe with opportunity. We are reimagining retailing; reengineering energy solutions for our customers; and are actively pursuing new energy frontiers. As progress requires, we have expanded our paradigm to leverage the business potential of our low-carbon future.

FOCOL's success is founded on its capacity to leverage the opportunities change manifests. It is indeed this capacity that has advanced FOCOL from a privately held trucking company to the multi-faceted, publicly traded energy company it is today. Embracing change has brought us to where we are; and as the world around us evolves, it is this mindset that will sustain the company in the future.

# CHAIRMAN'S REPORT 2018

## FOR THE YEAR ENDED JULY 31, 2018

The Board of Directors of FOCOL Holdings Limited (FOCOL) is pleased to present the audited results for the year-ended July 31, 2018. Net income for the year-ended July 31, 2018 was \$25 million compared to \$30 million the previous year.

There was a significant increase in the price of petroleum products in fiscal 2018. Despite a slight increase in sales volumes, competitive pressures related to higher petroleum prices resulted in decreased earnings in fiscal 2018.

During fiscal 2018, Management installed a new industry specific software, that will improve the Company's operational efficiency and customer service.

The Board of Directors wishes to thank our loyal customers, dedicated staff and shareholders for their continued confidence in FOCOL Holdings Limited.

Sir Franklyn Wilson, KCMG  
Chairman

## INDEPENDENT AUDITORS' REPORT

To the Shareholders of FOCOL Holdings Limited:

### Report on the Audit of the Consolidated Financial Statements

#### Opinion

We have audited the consolidated financial statements of FOCOL Holdings Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at July 31, 2018, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at July 31, 2018, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

#### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters	Summary of the Key Audit Matters	How the scope of our audit responded to the Key Audit Matters
<p><b>Recoverable amounts of goodwill</b></p>	<p>At 31 July 2018, the Group had recorded Goodwill of \$10,878,568 (Refer to Note 11 to the consolidated financial statements). The impairment assessment of goodwill is considered to be a key audit matter due to the significant assumptions involved by management. The most critical assumption in forecasting future cash flows is management's estimate on the expected growth rate and projection of future gross profit and expenses.</p>	<p>We obtained an understanding of the Group's cash generating units and assessed the Group's impairment methodology by involving a fair value specialist. We tested the design and implementation of controls around the preparation of the impairment model. We assessed the model to determine which factors had a greater impact on impairment. These factors (growth rate and projection of gross profit and expenses) were assessed for reasonableness by performing a retrospective analysis using past data and trends. We further obtained an understanding for assumptions that did not correlate to past data and trends. Where assumptions varied from our expectations, we assessed the impact of changes on the impairment model.</p>
<p><b>Revenue recognition</b></p>	<p>The Group's revenue for the year end July 31, 2018 amounted to \$318,002,171, and the revenue accounting policy is disclosed in Note 3(p) to the consolidated financial statements.</p> <p>There is a presumed significant risk as it relates to revenue recognition. There is a risk that the incorrect price or volume for the wholesale operations may be recorded.</p>	<p>We obtained an understanding of the information technology controls and tested the design and implementation of those controls around the main revenue streams.</p> <p>We performed tests of details by selecting a sample of invoices voided during the period and subsequent to year end. We performed data analytics on pricing to identify any outliers in the population and a reconciliation of total gallons pumped in comparison to quantities sold. We also tested a sample of voided invoices for accuracy and occurrence by comparing them to the reissued invoices and credit memos and reviewed the related documents.</p>
<p><b>System Implementation</b></p>	<p>The implementation of the Group's new Enterprise Resource Planning system ("ERP") is considered to be matter of key significance due to the effect that it could have on the accuracy and completeness of data that is being processed via the new software.</p>	<p>We obtained an understanding of the implementation strategy of the ERP system by involving an information technology specialist. An understanding of the general information technology controls was obtained, and we tested the design and implementation of those controls.</p> <p>We performed direct testing to ensure that the closing balances per the old system agreed to the opening amounts recorded in the new ERP. We performed procedures tests of the accuracy and completeness of reports produced by ERP, and we ensured that all supporting schedules received were reconciled to the general ledger accounts.</p>

## **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## **Auditors' Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group's audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditors' report is Talia Albury.

The Directors anticipate that the Group will adopt these Standards in the relevant future periods, but have not yet assessed the potential impact of the adoption of these Standards.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- a. Statement of compliance* - The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards and the interpretations adopted by the IASB, applied on a consistent basis for all years presented.
- b. Basis of preparation* - The consolidated financial statements include the Group and its wholly-owned subsidiaries, and have been prepared under the historical cost convention. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

The preparation of consolidated financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed separately.

- c. Basis of consolidation* - The consolidated financial statements incorporate the financial statements of the Group, entities (including structured entities) controlled by the Group and its subsidiaries. Control is achieved when the Group:
- has power over the investee;
  - is exposed, or has rights, to variable returns from its involvement with the investee; and
  - has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- Any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Group. Total comprehensive income of subsidiaries is attributed to the owners of the Group.

When necessary, adjustments are made to the financial statements of subsidiaries to align their accounting policies with the Group's accounting policies.

All inter-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

- d. Cash and cash equivalents* - Cash and cash equivalents comprise cash balances, call and short-term deposits with original contractual maturities of 3 months or less, and subject to an insignificant risk of changes in value. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flows.
- e. Term deposits* - Term deposits comprise of bank deposits with original maturities greater than three (3) months.
- f. Accounts receivable* - Accounts receivable are stated at cost less allowance for doubtful accounts (Note 7) and any impairment losses (Note 3 (k)).
- g. Prepayments and other assets* - Prepayments and other assets consist primarily of costs paid for future services occurring within a year. These costs include insurance, business license and real property tax fees which are being amortized over the terms of their respective agreements or period, respectively. Security deposits exists with Governmental agencies and private entities and are recognized in the consolidated statement of financial position as 'other assets'
- h. Investments* - Investments are recognized on a trade date basis and are initially measured at cost. Investments are classified at fair value through profit or loss and are stated at fair value, with any resultant gain or loss recognized in the consolidated statement of comprehensive income. The fair value of such investments is the quoted bid price at the date of the consolidated statement of financial position.

Investments are grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 - Fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.

- Level 2 - Fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 - Fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

- i. Inventories** - Inventories are valued at the lower of cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of selling expenses.

Cost of inventories is based on the first-in, first-out method and includes expenditure incurred in acquiring the inventories and bringing them to their existing location and condition.

- j. Property, plant, equipment and investment property** - Property, plant, equipment and investment property are stated at cost less accumulated depreciation and impairment losses (see Note 3(k)). Maintenance, repairs and minor costs are expensed as incurred.

Major repairs and improvements which substantially extend the useful life of the assets are capitalized. Upon sale or other disposition of assets, the cost and the related depreciation are removed from the accounts and the resulting gain or loss, if any, is reflected in income. Commencing the month following acquisition or when the asset is placed in service, depreciation of property, plant, equipment and investment property is recorded on the straight-line basis with the following rates of depreciation:

Buildings and improvements	3.9% - 2.5%
Equipment	12.5 - 20%
Computer, furniture, fixtures and fencing equipment	20 - 33.3%
Storage facilities	3.9% - 5%
Vehicles	20%
Liquid petroleum gas plant	5%

- k. Impairment** - Property, plant, equipment, investment property, accounts receivable and intangible assets are reviewed at the date of each consolidated statement of financial position to determine whether there is objective evidence of impairment. If any such indications exist, the asset's recoverable amount is estimated.

The recoverable amount of assets is the greater of their net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessment of the time value of money and the risks specific to the asset. For an asset that does not generate cash flows largely independent of those from other assets, the recoverable amount is determined for the cash generating unit to which the asset belongs.

### Property, plant, equipment and investment property

An impairment loss is recognized whenever the carrying amount of the asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognized in the consolidated statement of comprehensive income.

An impairment loss is only reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had been recognized.

### Accounts receivable

The recoverable amount of receivables is calculated as the total amount of expected collections. The receivables are of a short-term duration and, therefore, the expected future cash collections are not discounted.

### Intangible assets

Goodwill and indefinite life intangibles are tested for impairment on an annual basis. Determining whether goodwill and intangibles are impaired requires an estimation of the value in use of the asset or cash-generating units to which such assets have been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the asset or cash-generating unit and a suitable discount rate in order to calculate present value.

Intangible assets with finite useful lives are assessed for impairment when there is an impairment indicator. Amortization is recorded on a straight-line basis over the useful life of the asset.

1. **Leases** - Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases. Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease.

### The Group as a lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

### The Group as lessee

Assets held under finance leases are recognized as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation. Lease payments are apportioned between finance charges and a reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability.

- m. Repurchase of shares* - When share capital recognized as equity is repurchased, the amount of consideration paid, including directly attributable costs, is recognized as a reduction of equity. Pursuant to Section 45 of the Companies Act, 1992 all common shares purchased are cancelled.
- n. Accounts payable and accrued liabilities* - Accounts payable and accrued liabilities are measured at cost using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.
- o. Dividends* - Dividends are recognized as a liability in the period in which they are declared.
- p. Revenue recognition* - Revenue is recognized in the consolidated statement of comprehensive income when significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognized if there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods. Revenue is measured at the fair value of the consideration received or receivable.

Revenue from interest and dividend income are included in other income in the consolidated statement of comprehensive income. Interest income is recognized using the effective interest method, and dividend income is recognized when the shareholder's right to receive payment is established.

- q. Employee benefits* - The Group maintains defined contribution plans covering all eligible fulltime employees. Contributions to the plan are based on salaries. Obligations for pension plans are recognized as an expense in the consolidated statement of comprehensive income as incurred.
- r. Provisions* - A provision is recognized in the consolidated statement of financial position when the Group has a present and legal obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

- s. **Business combinations** - The acquisition of subsidiaries is accounted for using the purchase method. The cost of the acquisition is measured at the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree, plus any costs directly attributable to the business combination. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 are recognized at their fair values at the acquisition date, except for non-current assets that are classified as held for sale in accordance with IFRS 5 Non-Current Assets Held for Sale and Discontinued Operations, which are recognized and measured at fair value less costs to sell.

Goodwill arising on acquisition is recognized as an asset and initially measured at cost, being the excess of the cost of the business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognized. If, after reassessment, the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities exceeds the cost of the business combination, the excess is recognized immediately in the consolidated statement of comprehensive income.

- t. **Foreign currency translation** - The Group's functional currency is Bahamian dollars. In preparing the consolidated financial statements of the Group, transactions in currencies other than Bahamian dollars are recorded at the rates of exchange prevailing on the dates of the transactions. At the date of each consolidated statement of financial position, monetary items denominated in foreign currencies are retranslated at the rates prevailing on that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are included in the consolidated statement of comprehensive income. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in the consolidated statement of comprehensive income for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognized directly in equity. For such non-monetary items, any exchange component of that gain or loss is also recognized directly in equity.

- u. **Classification** - Assets are classified as current when intended for sale or consumption in the normal operating cycle, or held primarily for the purpose of being traded, or expected to be realized within twelve months, or classified as cash or cash equivalents. All other assets are classified as non-current. Liabilities are classified as current when expected to be settled in the normal operating cycle, or held primarily for the purpose of being traded, or due to be settled within twelve months, or there are no unconditional rights to defer settlement for at least twelve months. All other liabilities are classified as non-current.

- v. **Segment reporting** - A segment is a distinguishable component of the Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

- w. **Investment in associate** - An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control over those policies and is typically evidenced by voting rights more than 20%.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting. Under the equity method, an investment in an associate is initially recognized in the consolidated statement of financial position at cost and adjusted thereafter to recognize the Group's share of the profit or loss and other comprehensive income of the associate.

When the Group's share of losses of an associate exceeds the Group's interest in that associate (which includes any long-term interest that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognizing its share of further losses.

Additional losses are recognized only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

- x. **Related parties** - Related parties are defined as follows:
- i. Controlling shareholders;
  - ii. Subsidiaries;
  - iii. Associates;
  - iv. Individuals owning, directly or indirectly, an interest in the voting power that gives them significant influence over the enterprise, i.e. normally more than 20% of shares (including close family members of such individuals);
  - v. Key management personnel - persons who have authority for planning, directing and controlling the enterprise and close family members of such individuals; and
  - vi. Enterprises owned or which are controlled by the individuals described in (i), (iv) and (v).

#### 4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

*Critical judgments in applying the entity's accounting policies* - In the process of applying the Group's accounting policies, which are described above, judgments made by management that have the most significant effect on the amounts recognized in the consolidated financial statements are discussed in the relevant notes below.

*Key sources of estimation uncertainty - critical accounting estimates* - The preparation of consolidated financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as the disclosure of contingent assets and liabilities, at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Certain amounts included in or affecting the Group's consolidated financial statements and related disclosure must be estimated, requiring the Group to make assumptions with respect to values or conditions which cannot be known with certainty at the time the consolidated financial statements are prepared. A critical accounting estimate is one which is both important to the portrayal of the Group's financial condition and results and requires management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. The Group evaluates such estimates on an ongoing basis, based upon historical results and experience, consultation with experts, trends and other methods considered reasonable in the particular circumstances, as well as the forecasts as to how these might change in the future.

- a. **Impairment** - The Group has made significant investments in tangible and intangible assets. These assets and investments are tested for impairment either annually or when circumstances indicate there may be potential impairment. Factors considered important which could trigger an impairment review include the following: significant fall in market values; significant underperformance relative to historical or projected future operating results; significant changes in the use of the assets or the strategy for the overall business, including assets on which a decision has been made to phase out or replace and also assets that are damaged or taken out of service; significant negative industry or economic trends; and significant cost overruns in the development of assets.

Estimating recoverable amounts of assets of companies must in part be based on management evaluations, including estimates of future performance, revenue generating capacity of the assets, assumptions of the future market conditions and the success in marketing of new products and services. Changes in circumstances and in management's evaluations and assumptions may give rise to impairment losses in the relevant periods.

- b. **Depreciation and amortization** - Depreciation and amortization is based on management's estimate of the useful lives of property, plant, equipment, investment property and intangible assets. Estimates may change due to technological developments, competition, changes in market conditions and other factors that may result in changes in their estimated useful lives.
- c. **Investment in associate** - In accordance with the provisions of IFRS 10 *Consolidated Financial Statements* and IAS 28 *Investment in Associates*, the Group assessed whether or not it has control over BTCI Tankers Ltd. ("BTCI"), based on practical ability to direct the relevant activities of BTCI unilaterally. The Group owns 60% voting and equity interest in BTCI with Marine Tankers Services AS ("MTS") having 40% voting and equity interest. In making their judgment, the Group considered that the relevant activities of BTCI are controlled through the management agreement with Marine Management LLC ("MML"), a subsidiary of MTS. Given the nature and terms of the management agreement, it was determined that the relationship was established whereby MTS is a principal acting on its behalf as described in IFRS 10. Therefore, it was determined that the Group does not have control as they do not have the ability to direct the relevant activities, thereby making BTCI an investment in associate.

- d. Business combinations* - Business combinations are required to allocate the purchase price of acquired companies to the assets acquired and liabilities assumed based on their estimated fair values. For larger acquisitions, the Group engages independent third-party appraisal firms to assist in determining the fair value of the assets acquired and liabilities assumed. Such valuations require management to make estimates and assumptions for significant purchases. These purchases of intangible assets recorded by the Group include customer contracts, brands, trademark and other licenses, and service concession rights.

Management's estimates of fair value and useful lives are based upon assumptions believed to be reasonable, but which are inherently uncertain and unpredictable and, as a result, actual results may differ from these estimates.

- e. Legal proceedings, claims and regulatory discussions* - The Group is subject to various legal proceedings, claims and regulatory discussions, the outcomes of which are subject to significant uncertainty. The Group evaluates, among other factors, the degree of probability of an unfavorable outcome and the ability to make a reasonable estimate of the amount of loss. Unanticipated events or changes in these factors may require the Group to increase or decrease the amount the Group has accrued for any matter, or accrue for a matter that has not been previously accrued for because it was not considered probable, or a reasonable estimate could not be made.
- f. Provision for bad debts* - To cover any shortfall from trade receivables, the Group records a provision for bad debts based on historical information and on estimates with regard to the solvency of customers. Unexpected financial problems of major customers could lead to the recorded provision being inadequate.

## 5. CASH AND CASH EQUIVALENTS

FOHIL has short-term deposits with local banks totaling \$309,158 (2017: \$306,899), with interest rates ranging from 1% to 1.50% (2017: 1.50%) per annum.

FOHIL has an overdraft facility up to \$7,500,000 (2017: \$7,500,000) with a local bank which bears interest at Bahamas Prime plus 1.00% or 5.25% (2017: Bahamas Prime plus 1.00% or 5.25%) per annum; at July 31, 2018, the balance was \$983,427 (2017: \$Nil). The overdraft is secured by a guarantee and postponement of claim by the Group, a fixed charge over FOHIL's assets, and assignment of insurance proceeds.

FOCOL has an available loan facility of \$5,000,000 which earns interest at Prime plus 0.25% or 4.5%. The Group did not utilize the available loan facility during the year.

FOCOL has available to it, an overdraft facility of \$2,500,000 (2017: \$2,500,000). This overdraft facility bears interest at Bahamas Prime plus 1.00% or 5.25% (2017: Bahamas Prime plus 1.00% or 5.25%) per annum; at July 31, 2018, the balance was \$Nil (2017: \$Nil). The overdraft facility is secured by a guarantee and postponement of claim for \$3,000,000 (2017: \$3,000,000) from the Group, which is supported by the usual directors' resolution, as well as a fixed and floating charge debenture over the assets of FOCOL and all risk insurance with loss payable to RBC Royal Bank (Bahamas) Limited, including appropriate insurance of the Group's oil tank farm, stamped to secure \$6,000,000.

Boulevard has available to it, an overdraft facility of \$100,000 (2017: \$100,000). This overdraft facility bears interest at Bahamas Prime plus 1.00% (2017: Bahamas Prime plus 1.00% or 5.25%) per annum; at July 31, 2018, the balance was \$Nil (2017: \$Nil).

## 6. INVENTORIES

Inventories consist of the following:

	<b>2018</b>	<b>2017</b>
Gasoil - diesel	\$ 14,138,831	\$ 6,659,568
Gasoline - unleaded	5,152,997	2,793,571

	<u>\$ 46,460,960</u>	<u>\$ 31,774,494</u>

Included in accounts receivable are balances totaling \$15,496,030 (2017: \$15,475,468) which are past due but not impaired.

*(Concluded)*

## 8. INVESTMENTS

Investments are considered Level 1 investments and consist of the following:

	<b>2018 Market Value</b>	<b>2017 Market Value</b>
ICD Utilities Limited:		
50,000 ordinary shares at par value of B\$0.10 (cost \$600,000)	<u>\$ -</u>	<u>\$ 350,500</u>

During the year, the majority shareholder acquired all remaining outstanding ordinary shares of ICD Utilities Limited. The Group held 50,000 ordinary shares with a market value of \$350,500 on the redemption date. The Group received a cash payment of \$442,500 and recorded a realized gain of \$92,000 on the disposal.

## 9. PREPAID EXPENSES AND SUNDRY ASSETS

Prepaid expenses include advances and other deferred expenses of \$1,302,436 (2017: \$1,999,111) to be fully amortized during the subsequent fiscal year.

Sundry assets include deferred costs of \$1,688,534 (2017: \$1,555,274) on an insurance policy with a related party, in-force to March 2019 (2017: March 2018).

## 10. PROPERTY, PLANT, EQUIPMENT AND INVESTMENT PROPERTY, NET

## 11. GOODWILL AND INTANGIBLE ASSETS

Goodwill and intangible assets consists of the following:

	<b>2018</b>	<b>2017</b>
Goodwill	\$ 10,858,568	\$ 10,858,568
Intangible assets	<u>1,748,571</u>	<u>2,331,429</u>
	<u>\$ 12,607,139</u>	<u>\$ 13,189,997</u>

### Goodwill

Goodwill consists of the following:

	<b>2018</b>	<b>2017</b>
Goodwill, G.A.L. Terminal Limited	\$ 3,808,514	\$ 3,808,514
Goodwill, Shell Propane Plant	3,285,419	3,285,419
Goodwill, Boulevard Services Limited	3,116,881	3,116,881
Goodwill, Grand Bahama Terminals Limited	<u>647,754</u>	<u>647,754</u>
	<u>\$ 10,858,568</u>	<u>\$ 10,858,568</u>

### *Allocation of goodwill to cash-generating units:*

Goodwill has been allocated for impairment testing purposes to the following cash-generating units:

- *Petroleum operations* - wholesale sales of petroleum and petroleum products, lubricating oils and greases and all other petroleum derivatives, the construction and operations of filling stations and the provision of bunkering services in Grand Bahama. Goodwill allocated to this cash generating unit totaled \$7,573,149 (2017: \$7,573,149).
- *LPG operations* - distribution, wholesale and retail sales of propane in Grand Bahama. Goodwill allocated to this cash generating unit totaled \$3,285,419 (2017: \$3,285,419).

### Petroleum Operations - Supply of petroleum products

Goodwill arose during 2006 and 2013 when the Group acquired Texaco Service Stations in Lewis Yard and Eight Mile Rock, and Boulevard Services Limited in Freeport, Grand Bahama, respectively. The recoverable amount of this cash-generating unit is determined based on value-in-use calculations which uses cash flow projections based on financial budgets approved by the Directors covering a five-year period, and discount rates of 11% per annum (2017: 11%).

Cash flow projections during the budgeted period are based on consistent gross margins throughout the budgeted period. The cash flows were projected over the 5-year discrete period based on a growth rate of 2% (2017: 1%) per annum. The annual growth rate is estimated by management based on the annual GDP growth rate adjusted for any entity specific considerations. The Directors assessed the key assumption and concluded that reasonable changes in the key assumptions described would not cause the aggregate carrying value to exceed the aggregate recoverable amount resulting in an impairment of the goodwill.

#### LPG Operations - Supply of propane

Goodwill arose during 2005 with the acquisition of the Shell Propane Plant in Grand Bahama. The recoverable amount of this cash-generating unit is determined based on a value-in-use calculation which uses financial budgets approved by the Directors covering a five-year period, and a discount rate of 14% (2017: 11%) per annum. The business has continued to operate on a satisfactory basis, but without achieving any significant increase in market share because it remains the only supplier of the product.

Cash flow projections during the budgeted period are based on consistent gross margins throughout the budgeted period. The cash flows were projected over the 5-year discrete period based on an annual growth rate of 1% (2017:1%) per annum. The annual growth rate is estimated by management based on the annual GDP growth rate adjusted for any entity specific considerations. The Directors assessed the key assumption and concluded that reasonable changes in the key assumptions described would not cause the aggregate carrying value to exceed the aggregate recoverable amount resulting in an impairment of the goodwill.

#### Intangible assets

Intangible assets consist of the following:

	<b>2018</b>	<b>2017</b>

	<u>\$ 1,748,571</u>	<u>\$ 2,331,429</u>

Shell Brands International AG is one of the Shell Overseas Holdings Limited (“SOHL”) Group of Companies whose primary responsibility is to maintain the Shell Brand Trademarks in all relevant jurisdictions. Upon purchasing Shell Bahamas Limited, the Group paid an initial license fee of \$4,080,000 and pays quarterly royalties on American gallons sold from authorized sites. The agreement provides the Group with a non-exclusive license to continue the use of the Shell Brand Visual Manifestations at authorized sites.

The Group entered into an initial Trademark License Agreement with SOHL which expired January 15, 2011. Effective July 2012, the agreement was renewed for a further five (5) years with revised royalty rates. “The Parties may at any time extend the License term for a further period of five (5) years on the same commercial terms as at the commencement date or otherwise.” Management reviewed the useful life assessment and subsequently determined that the Trademark License has a finite useful life equal to the remaining life of the contract with the exercised option. As a result, the Trademark License is being amortized over a period of seven years, commencing August 2014. Management has assessed and have not identified any impairment events that would trigger impairment testing of the trademark during the year.

The value of the initial license fee was determined by SOHL and purportedly represents the proportionate value added to the business as a result of SOHL’s global efforts to distinguish itself and promote its products over those of its competitors.

	\$ 3,225,153	\$ 2,903,367

The balance due from/to associate is unsecured and interest free with no fixed terms of repayment.

## 21. FINANCIAL INSTRUMENTS

The Group is exposed to various risks including interest rate risk, credit risk, liquidity risk, capital risk, currency risk and fair value of financial assets and liabilities risk arising in the normal course of the Group's business activities. Management monitors the financial risks of the Group and takes such measures as considered necessary from time to time, to minimize such financial risks.

### a. Interest rate risk

The Group is exposed to interest rate risk on short-term deposits and long-term debt. Management monitors interest rates to minimize the gap between interest rates, however, such instruments bear interest at adjustable rates thus limiting interest rate risk.

### b. Credit risk

The Group is exposed to credit risk in respect of losses that would have to be recognized if counterparties fail to perform as contracted.

The Group's exposure to credit risk is primarily with respect to accounts receivable, bank balances, and short-term deposits. Credit risk on bank balances and short-term deposits is limited as counterparties are reputable, well-established financial institutions. The Group's credit risk is thus primarily limited to accounts receivable, which is shown net of provision for doubtful accounts.

### c. Liquidity risk

Liquidity risk is the risk that an enterprise will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value.

Prudent liquidity risk management requires maintaining sufficient cash. The Group monitors and maintains a level of bank balances deemed adequate to finance its operations. The Group maintains cash deposits with financial institutions of good standing. In addition, the Group through its subsidiaries maintains overdrafts as described in Note 5.

### d. Capital risk

Capital risk is the risk that the Group will become unable to absorb losses; this entails ensuring that opportunities can be acted upon in a timely fashion, while solvency is never threatened.

The Group manages its capital to ensure it will be able to continue as a going concern while maximizing benefits and opportunities that may arise. The Group holds Board of Directors meetings, during which time all aspects of the business are discussed. Identified risks are addressed and immediate solutions are sought. The capital structure of the Group consists of net debt and equity of the Group and is comprised of issued capital, reserves and retained earnings.

The Board manages its capital structure and makes adjustments to it in light of economic conditions. The Board may from time to time adjust dividend payments, return capital to shareholders, issue new shares, retire debt or increase debt all subject to performance ratios provided by their primary banker. The Group's capital risk policy remains unchanged from 2017.

e. Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. At present, the Group does not have any significant transactions denominated in foreign currencies and foreign exchange rates have not significantly fluctuated during the year.

Transactions denominated in U.S. dollars were translated into Bahamian dollars at the time of the exchange.

f. Fair value of financial assets and liabilities risk

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Underlying the definition of fair value is the presumption that the Group is a going concern without any intention or need to liquidate, curtail materially the scale of its operations or undertake a transaction on adverse terms.

In the opinion of management, the estimated fair value of financial assets and financial liabilities (accounts receivable, investments at fair value through profit or loss, bank balances, and accounts payable and accrued liabilities) at the date of the consolidated statement of financial position were not materially different from their carrying values due to their short-term nature.

## 22. COMMITMENTS

The Group through its subsidiaries has entered into various strategic agreements with third parties in order to secure supplies of inventory, as well as a Technical Service Agreement in connection with its participation in the Joint Operation at the Lynden Pindling International Airport. Incidental to these agreements, the Group through its subsidiaries, has committed to minimum purchase quantities for the supply agreements, and a minimum annual fee for the Technical Service Agreement.

FOHIL renewed a Trademark License agreement effective July 2012 (see Note 11). The agreement provides FOHIL a non-exclusive license to the Shell Brand Visual Manifestations at authorized sites. Consideration for the license, valued at \$4,080,000 at inception of the agreement, is capitalized accordingly. Continued use of the license is contingent on FOHIL's commitment to pay SOHL royalties based on American gallons sold by authorized sites.

The Group, through its subsidiary, entered into a supply agreement with a major supplier of petroleum products. Per the sales agreement, the Group is committed to purchase minimum quantities of gasoline, diesel and liquid petroleum gas for the calendar year. The supply agreement covers the period from January 1, 2017 to December 31, 2018. Thereafter, the agreement shall renew automatically for each successive year, unless terminated thereafter by either party upon written notice of cancellation.

### 23. LEASE AGREEMENTS

#### Company as Lessor

Rental income from service stations, shop spaces and automated banking machines was \$706,881 (2017: \$694,187).

Future minimum payments due at July 31, 2018 were as follows:

	<b>2018</b>	<b>2017</b>
Within one year	\$ 692,096	\$ 681,396
After one year but no more than five years	<u>2,837,594</u>	<u>2,797,414</u>
	<u>\$ 3,529,690</u>	<u>\$ 3,478,810</u>

#### Company as Lessee

Operating lease commitments from service stations, property and buildings were \$692,096 (2017: \$681,396).

Future minimum lease rental expenses as at July 31, 2018 are as follows:

	<b>2018</b>	<b>2017</b>
Within one year	\$ 875,863	\$ 973,695

	<u>\$ 4,423,724</u>	<u>\$ 4,815,925</u>

Charter hires for vessels from the associate were \$5,999,057 (2017: \$7,971,055). The original lease terms on these charters ranged between two (2) to five (5) years and are currently on an 'evergreen' basis (i.e. the leases are automatically renewed until proper notice of cancellation by either party).

## 24. CONTINGENT LIABILITIES

The Group is contingently liable for customs bonds of \$1,305,000 (2017: \$1,305,000) and has standby letters of credit of \$9,500,000 (2017: \$9,250,000).

## 25. CLAIMS AGAINST THE GROUP

Pursuant to the purchase of Shell Bahamas Limited, FOHIL assumed several outstanding legal matters and has engaged legal Counsel to represent FOHIL in these matters. Based on management's judgment, a provision has been made in the consolidated financial statements for remaining exposure to expected loss in connection therewith.

## 26. SEGMENT REPORTING

The Group's primary format for segment reporting is in Business Segments. The risks and returns of the Group's operations are primarily determined by the nature of the different activities that the Group is engaged in, rather than the geographical location of these operations. This is reflected by the Group's organizational structure and the Group's internal financial reporting systems.

The Group has two Operating Segments: Wholesale and Retail. The activity of the Retail Segment includes marketing and operating several service stations, whilst, the Wholesale Segment is dedicated to supplying petroleum products. The Group is managed on an integrated basis. The accounting policies of Operating Segments are the same as those described in Note 3, Summary of Significant Accounting Policies. Sales between segments are made at prices that approximate market prices, taking into account the volumes involved. Revenue, expenses and results of the segments include inter-segment transactions between business segments. These transactions and any unrealized profits and losses are eliminated on consolidation.
