Financial Update

Commonwealth Brewery Ltd. (CBL) continued to experience strong growth in Net Revenue during the period ending 31st March 2022 (+20%) when compared to the same period of 2021. Key drivers for the continued growth were a further easing of COVID-19 related restrictions and continued economic recovery, led by a rebound of the tourism and hotel sector.

Operating expenses has increased to \$24M for the period (+14%) which is driven by increased sales and increase supply costs. There were continuous disruptions to the global supply chain that lead to higher input costs for the Company.

In the first quarter, CBL continues to show profitability with Net Profit of \$1.3M in comparison to the Net Loss of \$0.3M for the comparative period of 2021. CBL remains cautiously optimistic as local COVID economic recovery progresses. Management is also closely monitoring its business strategies and taking additional measures to limit the impact of the global supply chain. Still, price increases and out of stocks will be inevitable. CBL will continue to invest in its brands, technology, people and the community as part of its long-term strategy.
