## **Filing and publication of Audited Financial Statements for the year ended 31<sup>st</sup> January 2023.**

The Board of Directors of Doctors Hospital Health System Limited ("Doctors Hospital") hereby notifies its shareholders of the following:

The Audited Financial Statements for the year ended 31st January 2023 were due to be filed and published on or before 31st May 2023. However, to give our auditors more time to examine our IFRS 9 provisioning the production of the audited annual financial statements and the auditor's report associated therewith, the said financial statements were not filed and published within this time. Doctors Hospital therefore applied to the Bahamas International Securities Exchange (BISX) and the Securities Commission of The Bahamas ("the Commission") for an extension of time in which to file and publish the said Audited Financial Statements. Both BISX and the Commission have granted Doctors Hospital's request. Accordingly, the Audited Financial Statements for the year ended 31st January 2023 will be filed and published on or before 30th June 2023.

Patricia Simmons  
Company Secretary

## **About Doctors Hospital**

Accredited by Joint Commission International in 2010, Doctors Hospital Health System ("Doctors Hospital") is the premier tertiary healthcare institution in The Bahamas. Doctors Hospital was formerly named The Rassin Hospital, founded in 1955 by the late Dr Meyer Rassin, a leading orthopedic surgeon who opened the original 20,000 square-foot, 24-bed medical facility. The Rassin Hospital was the most modern hospital in the West Indies for its time and a longtime dream of Dr Meyer Rassin to provide quality healthcare to patients. A group of Bahamian physicians bought the facility in 1986 and renamed it Doctors Hospital. In 1993, the hospital completed a 50,000-square-foot expansion and then became a publicly

traded company in 1999. It now has over 1000 Bahamian shareholders. Today, Doctors Hospital is a 94-bed multi-site health system comprising two unique facilities. The main hospital situated at the corner of Collins Avenue and Shirley Street provides a full range of inpatient and outpatient services. The satellite facility, Doctors Hospital West (formerly Bahamas Medical Center), is located in western New Providence on Blake Road.
