

FirstCaribbean International Bank (Bahamas) Limited

Condensed Consolidated Financial Statements

For the six months ended April 30, 2024

MANAGING DIRECTOR'S REVIEW OF THE RESULTS

The Bank delivered another quarter of solid operating results and continues to create value for its stakeholders in the current operating environment. The ongoing execution of our client focused strategy, leveraging our digital infrastructure, client experience enhancements and investment in our people, positions us well for the future.

Market conditions underpin the Bank's growth momentum, as the country has reached pre-pandemic levels of economic activity. The country's growth outlook is forecasted to continue through the medium-term, albeit at a moderate pace. However, we continue to closely monitor downside risks related to the global economy, inflation, supply chain disruption and interest rates.

The Bank reported net income of \$27.9 million for the second quarter of fiscal 2024, compared to net income of \$31.6 million in the corresponding period of the prior year.

For the six months ended April 30, 2024, we reported net income of \$70.4 million, up \$10.3 million or 17% over the prior year's reported net income of \$60.1 million.

Our financial performance to date has been positively impacted by higher revenue mainly due to higher net interest margin on our US dollar loan portfolio and higher activity-based fees. Additionally, the impact of credit loss expense was positive as it reflected a release due to account recovery efforts. We continue to maintain disciplined risk management. We have also experienced higher operating expenses year over year due to ongoing strategic investments and inflationary pressure.

At the end of the second quarter, the Bank's Tier 1 and Total Capital ratios were 29.8%, in excess of applicable regulatory requirements. The Board of Directors has approved an interim dividend of nine cents (\$0.09) per share subject to regulatory approval.

I would like to acknowledge and thank our clients, employees, shareholders, and directors for their loyalty and continued support of our Bank.

Jacquie Bend
Managing Director

Notes:
The Bank's operations are organized into four segments: Personal and Business Banking ("PBB"), Corporate and Investment Banking ("CIB") and Wealth Management ("WM"), which are supported by the functional units within the Administration ("Admin") segment (which includes Treasury, Finance, Technology, Innovation & Infrastructure, Risk and Other). PBB, CIB and WM are charged or credited by Treasury with a market-based cost of funds on assets, liabilities and capital, respectively. The offset of these charges or credits are reported in the Treasury function within the Admin segment.

Management monitors the operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties. We review our transfer pricing methodologies on an ongoing basis to ensure they reflect changing market environments and industry practices. Transactions between the business segments are on normal commercial terms and conditions.

Segment assets and liabilities comprise operating assets and liabilities, being the majority of the statement of financial position, but exclude intangible assets. Securities and cash placements are normally held within the Treasury unit within the Admin segment.
