Executive Summary

on Unaudited Results for the 9 months ended 30th September, 2025

Year-to-date Results

For the nine months ended 30th September, 2025, the Group reported total comprehensive income of \$4.7 million, a \$5.8 million improvement over the total comprehensive loss of \$1.1 million in the comparative period for 2024. This positive result was driven by a strong performance from our Bahamas Property and Casualty ("P&C") segment, reflecting higher insurance revenue, lower operating expenses and revaluation gains on property.

In the Bahamas P&C segment, insurance revenue rose by 8.3% relative to the same period in the prior year, primarily driven by growth in the motor line of business. As net claims remained relatively flat, this revenue growth resulted in a 19.6% increase in the insurance service result. While the Cayman P&C segment recorded higher gross premiums written, this was offset by more ceded premium from the property line of business, resulting in a flat movement in the total insurance service result for the Cayman segments from prior year.

Other operating expenses improved by \$0.8 million, assisted by lower credit impairment losses and expense reversals attributed to the triennial building revaluation exercise. The revaluation gains from property also boosted other comprehensive income by \$2.7 million during the quarter.

Quarterly Performance for Q3 2025

For the three months ended 30th September, 2025, the Group recorded total comprehensive income of \$4.5 million, compared to \$2.6 million for the same period in 2024. Q3 2025 insurance service result was \$0.4 million lower than the same period last year. The revaluation gains noted previously were fully recorded during the third quarter and were narrowly offset by a \$0.4 million decline in unrealised gains on investments, thus increasing other comprehensive income relative to Q3 2024.
